

Melodie

Elke gemeente se sang is uniek, maar deel ook die liedereskat met die kerkverband.

Hierdie is 'n poging om die inligting wat ek oor jare bymekaar gemaak het te deel met die kerkverband, en ook om almal te nooi om insette te lewer ten opsigte van hulle ervarings en voorkeure.

Ek het ruim gebruik gemaak van Ds Arnold Mulder se lys van melodieë en alternatiewe melodieë wat gebruik kan word.

Leendert en Ria Lagendijk het reuse werk gedien deur 'n lys te maak van ooreenstemmende melodieë tussen die Psalmboek en die Liedboek (die eerste 150 liedere wat ook in die 2003 Psalmboek opgeneem is)

Hieronder vind u verskillende tabelle. Die Linkerkantste kolom is telkens die beginpunt. In die eerste tabel vind u die ooreenstemmende melodie (waar meer Psalms dieselfde melodie deel) asook alternatiewe melodieë.

Ek sou graag hierdie lys wou uitbrei! Enige alternatiewe of verdere uitbreidings is baie welkom. [E-pos my!](#)

Dankie

Hennie van Wyk
